## A Message from the Principal

To our Beverly Woods Elementary School families:

This is the annual School Progress Report for Beverly Woods Elementary. We are sending this to you so that you may be fully informed about our students' academic progress, our staff and our school environment.

Beverly Woods will celebrate its 40th year this fall. We continue to attract new families and we currently have an enrollment of more than 750 students. While our student body is large, we routinely receive positive feedback about our community- and family-oriented environment.

Our PTA offers many after-school and evening activities. Parent involvement is high, and we share a commitment to the success of all students. Investment in our school continues to increase through our annual Direct Giving Campaign. Last year we received more than \$85,000. In short, I attribute our school's success to our staff, students and families.

At Beverly Woods, our teachers surpass the district and state averages for holding advanced degrees. We have very low staff turnover, and our teachers are invested in our school and community. We received a score of 100 percent on our Safe School Audit and received local, state and national School of Character awards last year.

I am pleased to report that we made Adequate Yearly Progress, the standard set for schools by the No Child Left Behind Act. We also made High Growth and earned the School of Distinction designation.

Our school mission is to provide all students with a strong academic and character-based foundation to prepare them to explore, lead and serve in our global society. We provide leadership opportunities for students through our mini-society, allowing students in grades three

*(Principal's message continued on back)*

## KEY FACTS

*Data effective as of spring 2009*

### Principal

Caroline E. Clapp-Horne  
email: [caroline.horne@cms.k12.nc.us](mailto:caroline.horne@cms.k12.nc.us)

### Grades

K - 5

### School Population

- 806 Students
- 52 Teachers
- 1 Assistant Principal
- 1 Student Services Specialist
- 36 Support Staff

### Student Demographics

- 12.7% African American
- 76.2% White
- 6.1% Hispanic
- 2.4% Asian
- 2.7% Other
- 18.1% of students qualify for free or reduced-price lunch

### Learning Community

South

Area Superintendent: Tyler Ream

	Number of volunteer hours <sup>4</sup>	Increase by 25% district-wide	—	<b>592</b>
	Number of business and community partnerships	Increase by 25% district-wide	—	<b>4</b>

<sup>1</sup>Not a CMS 2010 goal

<sup>2</sup>Based on responses to 2008-09 survey; multiple survey items may have been used to create a composite

<sup>3</sup>Incidents per 100 students

<sup>4</sup>Per 100 students

# CMS Accountability Measures

The learning of students in public education is measured in multiple ways. There are assessments given at regular intervals by CMS—tests that we use to measure how students are learning as the school year progresses. Other tests are required by the state and given once or twice a year, such as End-of-Course and End-of-Grade tests. Some of the state test results are also used to calculate district progress on the federal standard of Adequate Yearly Progress for each student. This page provides brief explanations of some of the measures and tests used in CMS.

## ► Adequate Yearly Progress (AYP)

Our school **DID** make AYP  
(21 of 21 goals met)

The federal No Child Left Behind Act requires that every school make Adequate Yearly Progress (AYP). AYP is an all-or-nothing standard: Every target must be met.

State test results are used to set AYP targets. There are separate targets for the school as a whole and for nine subgroups of students: white, black, Hispanic, Native American, Asian, multiracial, economically disadvantaged students, students with limited English proficiency and students with disabilities. Subgroups of students are measured separately so that an overall score for a class or a school does not mask poor results within a subgroup.

Some schools are more diverse than others, so the number of subgroups varies by school. Therefore, the number of AYP targets varies by school, too. Some schools may have only a few targets to meet; others may have the maximum, which is 41. School attendance and graduation rates are also measured for AYP.

For a more complete overview of AYP, visit [www.dpi.state.nc.us/nclb/abcayp/overview/ayp](http://www.dpi.state.nc.us/nclb/abcayp/overview/ayp)

For details of AYP results for our school and its student groups, visit <http://ayp.ncpublicschools.org>

## ► ABC Designation

Our school's designation: **School of Distinction**  
(DID meet high growth expectations)

**Proficiency: 84.5%**

The North Carolina ABCs program was introduced more than a decade ago to help schools improve. It uses two basic measures to assess a school's performance: the Average Growth of students (at right); and the Performance Composite, which measures how well students performed against a state-set standard of academic achievement.

Schools are given one of seven designations. In descending order, they are: Honor School of Excellence, School of Excellence, School of Distinction, School of Progress, No Recognition, Priority School, and Low Performing.

For more information about ABCs, visit <http://abcs.ncpublicschools.org/abcs>

## ► Average Growth

State Standard: 80%  
**Our School: 83.4%**

Did our students meet the state's expectation for academic growth? Each student is expected to perform as well (or better) on the End-of-Grade assessment as he or she did, on average, during the previous two years. Average Growth for a school is calculated by comparing actual performance to expected performance and then averaging the difference across all students and all subjects. The score above reflects the combined growth rate of all of our students. To make expected growth, a school must have a score of 80% or higher.

## ► Students Making or Exceeding a Year's Worth of Growth

State Standard: 60%  
**Our School: 62.5%**

Did our students learn as much as they were expected to learn this year? As described above, the state sets expectations for each student based on individual performance for the previous two years. Across the state, about half of students typically meet or exceed this growth expectation. To earn the high-growth designation, a school must meet the average-growth standard described above and also have more than 60% of its students make expected growth.

## ► Amount of Growth for Students in the Lowest Achieving Group

**Our School: 79.8%**

Are we helping our low achievers catch up? Historically, some poor and minority students have trailed their classmates in academic achievement. This is called the achievement gap, and closing it is one of the biggest challenges in public education. If the lower-achieving students at a school show academic growth at a faster rate than higher-achieving students, the achievement gap is narrowed. When the percentage for this measure is higher than the Average Growth for the school, the school is closing the achievement gap.

## ► Positive Responses to Multiple Student Survey Items

<b>Our School's Results:</b>	<b>Safety</b>	<b>94%</b>
	<b>Encouragement</b>	<b>97%</b>
	<b>Engagement</b>	<b>97%</b>

Do our students perceive this school as safe and welcoming? This measure is subjective—it is taken from a student survey.

*(Principal's message continued)*

through five to apply for jobs and interview at a job fair. Students learn responsibility through jobs that help others. Examples include school ambassadors, safety patrol, peer buddies for students with disabilities and an in-house postal system.

We have a technology lab staffed with a certified teacher. The lab has a SMART Board (interactive white board) and we have additional SMART Boards in our media center and all fifth-grade classrooms. We also have a mobile board for students in kindergarten through fourth grade. SMART Boards allow our students to master technology along with their academic studies.

At Beverly Woods, we have a large percentage of students in the Talent Development Program with a full-time certified teacher. Additionally, we have three self-contained classrooms for Exceptional Children. We value this component of our school as we have a philosophy of total inclusive practices.

I am one of the principals within CMS to be awarded Freedom and Flexibility with Accountability. This means I have been given some autonomy to keep our students moving forward. We have introduced research-based initiatives and programs to provide individualized instruction based on our students' needs. We also analyze data to ensure continued improvement and we research best practices.

At Beverly Woods, we encourage feedback as we work on continuous improvement. It is our responsibility to treat every child at this school as we would our own. We value a relationship-oriented environment built on mutual trust and respect with a common goal of student achievement for all.

Sincerely,  
Caroline Clapp-Horne  
*Principal*

## What is the School Progress Report?

In 2006, we introduced the *Charlotte-Mecklenburg Schools Strategic Plan 2010* outlining our vision and strategy to educate our students to compete locally, nationally and internationally.

The plan outlines seven areas of concentration: high academic achievement; effective educators; adequate resources and facilities; safe and orderly schools; freedom and flexibility with accountability; world-class service, and strong parent and community connections. This report summarizes how our school performed in the 2008-09 school year in making progress on these seven goals. On page 3, you will also find an explanation of federal and state accountability measures.

Educators and parents have a common goal of preparing our children to compete in an ever-growing global community. Working together requires frequent dialogue between school and parents, so please feel free to contact the principal or any staff member at our school.

REACH FURTHER.

The logo for Charlotte-Mecklenburg Schools (CMS) features a stylized leaf icon above the lowercase letters "cms" in a bold, red font. Below the letters, the full name "Charlotte-Mecklenburg Schools" is written in a smaller, black font.
