

# ▶ Chantilly Montessori School

## A Message from the Principal

Dear Chantilly Montessori School families:

This annual School Progress Report for Chantilly Montessori is intended to keep families fully informed about our students' academic progress, our staff and our school environment.

Chantilly Montessori, a full magnet school, is the newest Montessori school in CMS. We started in 2005 with pre-kindergarten through first grade. We will continue to add a grade each year until we have a full complement of Pre-K through sixth grade. The 2008-2009 school year was a special milestone for our school: the first year we had third- and fourth-graders taking the state End-of-Grade reading and math tests. We are very pleased to report that we made High Growth, that 84.2 percent of our students scored on grade level in math and 78.9 percent on grade level in reading. In addition, we made Adequate Yearly Progress, the standard set for schools by the No Child Left Behind Act.

We have built a strong foundation in the primary classes—pre-kindergarten and kindergarten. In kindergarten, 90 percent of students scored at or above grade level in literacy, 95 percent scored at or above grade level in writing and 92 percent scored at or above grade level in math. In addition, 91 percent of kindergarten students scored at benchmark on a national early literacy skills assessment.

As our school grows, we will focus our efforts on building a strong foundation in all grade levels. Last year, 86 percent of our first-grade students and 82 percent of second-graders scored at or above grade level in the CMS local literacy assessments. These scores rose significantly from the previous year. In math, 84 percent scored at or above grade level, up from 50 percent in 2007-2008. In addition, 90 percent of our first-grade and 82 percent of second-grade students scored at benchmark in early literacy assessment.

*(Principal's message continued on back)*

## KEY FACTS

*Data effective as of spring 2009*

### Principal

Dr. Leslie McCarley  
email: [l.mccarley@cms.k12.nc.us](mailto:l.mccarley@cms.k12.nc.us)

Chantilly Montessori School is a full Montessori magnet.

### Grades

Pre-K - 4

### School Population

- 271 Students
- 21 Teachers
- 1 Assistant Principal
- 1 Student Services Specialist
- 21 Support Staff

### Student Demographics

- 32.1% African American
- 52.8% White
- 4.4% Hispanic
- 3.7% Asian
- 7.0% Other
- 21.4% of students qualify for free or reduced-price lunch

### Learning Community

Central

Area Superintendent: Joel Ritchie  
324 N. McDowell Street  
Suite 100  
Charlotte, NC 28204  
980-343-1465  
email: [j.ritchie@cms.k12.nc.us](mailto:j.ritchie@cms.k12.nc.us)

	Number of volunteer hours <sup>4</sup>	Increase by 25% district-wide	—	<b>1,935</b>
	Number of business and community partnerships	Increase by 25% district-wide	—	<b>2</b>

<sup>1</sup>Not a CMS 2010 goal

<sup>2</sup>Based on responses to 2008-09 survey; multiple survey items may have been used to create a composite

<sup>3</sup>Incidents per 100 students

<sup>4</sup>Per 100 students

# CMS Accountability Measures

The learning of students in public education is measured in multiple ways. There are assessments given at regular intervals by CMS—tests that we use to measure how students are learning as the school year progresses. Other tests are required by the state and given once or twice a year, such as End-of-Course and End-of-Grade tests. Some of the state test results are also used to calculate district progress on the federal standard of Adequate Yearly Progress for each student. This page provides brief explanations of some of the measures and tests used in CMS.

## ► Adequate Yearly Progress (AYP)

Our school **DID** make AYP  
(2 of 2 goals met)

The federal No Child Left Behind Act requires that every school make Adequate Yearly Progress (AYP). AYP is an all-or-nothing standard: Every target must be met.

State test results are used to set AYP targets. There are separate targets for the school as a whole and for nine subgroups of students: white, black, Hispanic, Native American, Asian, multiracial, economically disadvantaged students, students with limited English proficiency and students with disabilities. Subgroups of students are measured separately so that an overall score for a class or a school does not mask poor results within a subgroup.

Some schools are more diverse than others, so the number of subgroups varies by school. Therefore, the number of AYP targets varies by school, too. Some schools may have only a few targets to meet; others may have the maximum, which is 41. School attendance and graduation rates are also measured for AYP.

For a more complete overview of AYP, visit [www.dpi.state.nc.us/nclb/abcayp/overview/ayp](http://www.dpi.state.nc.us/nclb/abcayp/overview/ayp)

For details of AYP results for our school and its student groups, visit <http://ayp.ncpublicschools.org>

## ► ABC Designation

Our school's designation: **School of Distinction**  
(DID meet high growth expectations)

**Proficiency: 81.6%**

The North Carolina ABCs program was introduced more than a decade ago to help schools improve. It uses two basic measures to assess a school's performance: the Average Growth of students (at right); and the Performance Composite, which measures how well students performed against a state-set standard of academic achievement.

Schools are given one of seven designations. In descending order, they are: Honor School of Excellence, School of Excellence, School of Distinction, School of Progress, No Recognition, Priority School, and Low Performing.

For more information about ABCs, visit <http://abcs.ncpublicschools.org/abcs>

## ► Average Growth

State Standard: 80%  
**Our School: 83.5%**

Did our students meet the state's expectation for academic growth? Each student is expected to perform as well (or better) on the End-of-Grade assessment as he or she did, on average, during the previous two years. Average Growth for a school is calculated by comparing actual performance to expected performance and then averaging the difference across all students and all subjects. The score above reflects the combined growth rate of all of our students. To make expected growth, a school must have a score of 80% or higher.

## ► Students Making or Exceeding a Year's Worth of Growth

State Standard: 60%  
**Our School: 63.5%**

Did our students learn as much as they were expected to learn this year? As described above, the state sets expectations for each student based on individual performance for the previous two years. Across the state, about half of students typically meet or exceed this growth expectation. To earn the high-growth designation, a school must meet the average-growth standard described above and also have more than 60% of its students make expected growth.

## ► Amount of Growth for Students in the Lowest Achieving Group

**Our School: 75.4%**

Are we helping our low achievers catch up? Historically, some poor and minority students have trailed their classmates in academic achievement. This is called the achievement gap, and closing it is one of the biggest challenges in public education. If the lower-achieving students at a school show academic growth at a faster rate than higher-achieving students, the achievement gap is narrowed. When the percentage for this measure is higher than the Average Growth for the school, the school is closing the achievement gap.

## ► Positive Responses to Multiple Student Survey Items

<b>Our School's Results:</b>	<b>Safety</b>	<b>100%</b>
	<b>Encouragement</b>	<b>100%</b>
	<b>Engagement</b>	<b>100%</b>

Do our students perceive this school as safe and welcoming? This measure is subjective—it is taken from a student survey.

# ▶ Chantilly Montessori School

*(Principal's message continued)*

Furthermore, 100 percent of our fourth-grade students scored at or above grade level in both reading and math. We will work to continue this success as we add additional grade levels over the next two years.

We are focusing this year on our third- and fourth-grade students to increase the number of students on grade level in reading and math. A combination of classroom interventions, strategic instruction and comprehensive staff development will provide support to our students and staff.

Our staff is strong and well qualified, and our teachers are not only licensed in North Carolina, but also are required to have Montessori teaching credentials from the American Montessori Society. A number of our staff members have advanced degrees and National Board certification.

Chantilly Montessori enjoys a positive school culture. A strong PTA and volunteer program provide

tremendous support, which we believe has contributed to our high teacher-retention rate.

Our classroom gardens and composting and recycling efforts effectively communicate the emphasis our school community places on the teaching of caring for our environment.

As a young school, we have had much success in a very short period of time. With the help of our well-qualified staff and significant volunteer and parent support, I am confident our students will continue to succeed academically and that we will build an incredibly successful school.

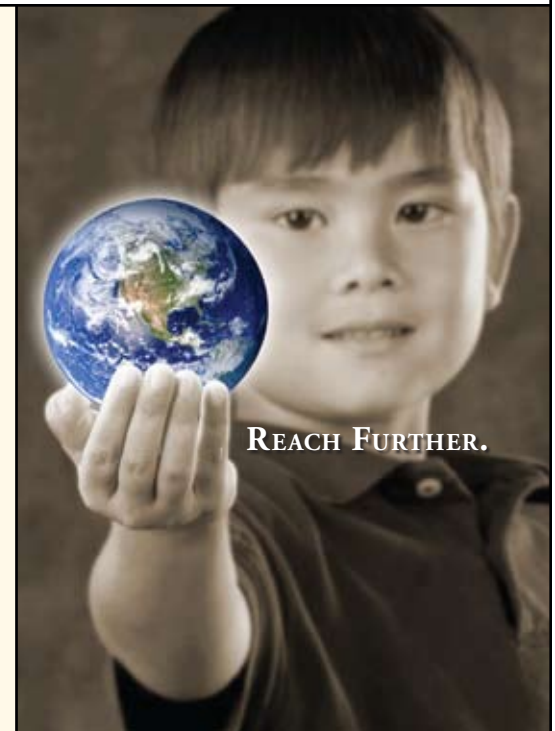

Sincerely,  
Dr. Leslie McCarley  
*Principal*

## What is the School Progress Report?

In 2006, we introduced the *Charlotte-Mecklenburg Schools Strategic Plan 2010* outlining our vision and strategy to educate our students to compete locally, nationally and internationally.

The plan outlines seven areas of concentration: high academic achievement; effective educators; adequate resources and facilities; safe and orderly schools; freedom and flexibility with accountability; world-class service, and strong parent and community connections. This report summarizes how our school performed in the 2008-09 school year in making progress on these seven goals. On page 3, you will also find an explanation of federal and state accountability measures.

Educators and parents have a common goal of preparing our children to compete in an ever-growing global community. Working together requires frequent dialogue between school and parents, so please feel free to contact the principal or any staff member at our school.

REACH FURTHER.
