## A Message from the Principal

To our Clear Creek Elementary School families:

This is the second School Progress Report for Clear Creek Elementary. It is part of our effort to keep families fully informed about our students' academic progress, our staff and our overall school environment. Clear Creek Elementary has been serving the Clear Creek community and surrounding area for more than 80 years.

Clear Creek Elementary was recognized by the state as a School of Distinction and achieved a status of High Growth following the state End-of-Grade tests. We had a composite proficiency rate of more than 86 percent on the reading, math and science tests. We also made Adequate Yearly Progress (AYP), the standard set for schools by the No Child Left Behind Act, by meeting all 17 of our targets.

While we are a School of Distinction and made AYP, we are still not satisfied with our students' academic progress. We will continue to use differentiated instruction, a flexible teaching approach that adapts the state curriculum to individual learning needs. We are also using data to help identify what, and how much, a student is learning.

Our faculty is strong, competent and compassionate, with the vast majority of our teachers highly qualified and experienced. We have several National Board-certified teachers. This will help continue to raise our academic achievement levels.

I was one of 50 principals chosen two years ago to pilot a CMS initiative called Freedom and Flexibility with Accountability.

# CMS Accountability Measures

The learning of students in public education is measured in multiple ways. There are assessments given at regular intervals by CMS—tests that we use to measure how students are learning as the school year progresses. Other tests are required by the state and given once or twice a year, such as End-of-Course and End-of-Grade tests. Some of the state test results are also used to calculate district progress on the federal standard of Adequate Yearly Progress for each student. This page provides brief explanations of some of the measures and tests used in CMS.

## ► Adequate Yearly Progress (AYP)

Our school **DID** make AYP  
(17 of 17 goals met)

The federal No Child Left Behind Act requires that every school make Adequate Yearly Progress (AYP). AYP is an all-or-nothing standard: Every target must be met.

State test results are used to set AYP targets. There are separate targets for the school as a whole and for nine subgroups of students: white, black, Hispanic, Native American, Asian, multiracial, economically disadvantaged students, students with limited English proficiency and students with disabilities. Subgroups of students are measured separately so that an overall score for a class or a school does not mask poor results within a subgroup.

Some schools are more diverse than others, so the number of subgroups varies by school. Therefore, the number of AYP targets varies by school, too. Some schools may have only a few targets to meet; others may have the maximum, which is 41. School attendance and graduation rates are also measured for AYP.

For a more complete overview of AYP, visit [www.dpi.state.nc.us/nclb/abcayp/overview/ayp](http://www.dpi.state.nc.us/nclb/abcayp/overview/ayp)

For details of AYP results for our school and its student groups, visit <http://ayp.ncpublicschools.org>

## ► ABC Designation

Our school's designation: **School of Distinction**  
(DID meet high growth expectations)

**Proficiency: 86.2%**

The North Carolina ABCs program was introduced more than a decade ago to help schools improve. It uses two basic measures to assess a school's performance: the Average Growth of students (at right); and the Performance Composite, which measures how well students performed against a state-set standard of academic achievement.

Schools are given one of seven designations. In descending order, they are: Honor School of Excellence, School of Excellence, School of Distinction, School of Progress, No Recognition, Priority School, and Low Performing.

For more information about ABCs, visit <http://abcs.ncpublicschools.org/abcs>

## ► Average Growth

State Standard: 80%  
**Our School: 83.0%**

Did our students meet the state's expectation for academic growth? Each student is expected to perform as well (or better) on the End-of-Grade assessment as he or she did, on average, during the previous two years. Average Growth for a school is calculated by comparing actual performance to expected performance and then averaging the difference across all students and all subjects. The score above reflects the combined growth rate of all of our students. To make expected growth, a school must have a score of 80% or higher.

## ► Students Making or Exceeding a Year's Worth of Growth

State Standard: 60%  
**Our School: 63.7%**

Did our students learn as much as they were expected to learn this year? As described above, the state sets expectations for each student based on individual performance for the previous two years. Across the state, about half of students typically meet or exceed this growth expectation. To earn the high-growth designation, a school must meet the average-growth standard described above and also have more than 60% of its students make expected growth.

## ► Amount of Growth for Students in the Lowest Achieving Group

**Our School: 83.5%**

Are we helping our low achievers catch up? Historically, some poor and minority students have trailed their classmates in academic achievement. This is called the achievement gap, and closing it is one of the biggest challenges in public education. If the lower-achieving students at a school show academic growth at a faster rate than higher-achieving students, the achievement gap is narrowed. When the percentage for this measure is higher than the Average Growth for the school, the school is closing the achievement gap.

## ► Positive Responses to Multiple Student Survey Items

<b>Our School's Results:</b>	<b>Safety</b>	<b>95%</b>
	<b>Encouragement</b>	<b>99%</b>
	<b>Engagement</b>	<b>97%</b>

Do our students perceive this school as safe and welcoming? This measure is subjective—it is taken from a student survey.

# ▶ Clear Creek Elementary School

*(Principal's message continued)*

This means that I have been given some additional autonomy to keep Clear Creek Elementary, and our students, moving forward.

All of us will continue to work on raising achievement. We will offer special End-of-Grade interventions beginning this spring, where our teachers provide before-school tutoring to help students master the essential End-of-Grade material.

I am confident that we will continue to see improvement in student achievement. Clear Creek Elementary has a supportive, orderly environment in which students and teachers treat each other with respect. That will continue.

We have very low staff turnover at Clear Creek Elementary. We have had only three principals since 1990. Faculty and staff stay at Clear Creek

because this is a successful elementary school that values its staff and students.

At Clear Creek Elementary, we are keeping first things first—and that means we are focused on student learning, strong teaching and continued high academic achievement in a safe and orderly environment.

Sincerely,  
T. Dale Ritchie, Ph.D.  
*Principal*

## What is the School Progress Report?

In 2006, we introduced the *Charlotte-Mecklenburg Schools Strategic Plan 2010* outlining our vision and strategy to educate our students to compete locally, nationally and internationally.

The plan outlines seven areas of concentration: high academic achievement; effective educators; adequate resources and facilities; safe and orderly schools; freedom and flexibility with accountability; world-class service, and strong parent and community connections. This report summarizes how our school performed in the 2008-09 school year in making progress on these seven goals. On page 3, you will also find an explanation of federal and state accountability measures.

Educators and parents have a common goal of preparing our children to compete in an ever-growing global community. Working together requires frequent dialogue between school and parents, so please feel free to contact the principal or any staff member at our school.

REACH FURTHER.
