

# **Croft Community School**

## **A Message from the Principal**

To our Croft Community School families:

This is the first school progress report for Croft Community School. We successfully completed our first school year and have many wonderful things to share. This report will give you an overview of our students' academic progress, our staff and our school environment.

I am pleased to report that Croft Community made High Growth in reading and math. This means that the majority of our students made more than a year's growth in both subject areas. Our composite math score for the 2008-2009 school year was 86.1 percent proficient. More than three-quarters of our third-, fourth- and fifth-grade students are considered at or above grade level by state standards.

On the state End-of-Grade reading test, our composite proficiency rate was 74.2 percent, meaning that nearly three-quarters of our students in third, fourth and fifth grades achieved the state proficiency standard and are considered on grade level. Our fifth-grade students made High Growth in reading compared to other students across the state.

We made Adequate Yearly Progress, the standard set for schools by the No Child Left Behind Act, by meeting all 17 of our targets.

During our first year, the staff, students and parents worked hard to build a collaborative, safe environment that fosters high levels of learning. Data from staff and parent surveys highlight satisfaction on all measures. Record numbers of volunteers participated in a wide variety of events from tutoring to family nights such as bingo and family fitness.

*(Principal's message continued on back)*

## **KEY FACTS**

*Data effective as of spring 2009*

### **Principal**

Kathleen S. Elling

*email: kathleen.elling@cms.k12.nc.us*

### **Grades**

K - 5

### **School Population**

- 639 Students
- 38 Teachers
- 1 Assistant Principal
- 1 Student Services Specialist
- 30 Support Staff

### **Student Demographics**

- 36.9% African American
- 46.8% White
- 5.0% Hispanic
- 4.2% Asian
- 7.0% Other
- 28.3% of students qualify for free or reduced-price lunch

	Number of business and community partnerships	Increase by 25% district-wide	—	<b>0</b>

<sup>1</sup>Not a CMS 2010 goal

<sup>2</sup>Based on responses to 2008-09 survey; multiple survey items may have been used to create a composite

<sup>3</sup>Incidents per 100 students

<sup>4</sup>Per 100 students

# CMS Accountability Measures

The learning of students in public education is measured in multiple ways. There are assessments given at regular intervals by CMS—tests that we use to measure how students are learning as the school year progresses. Other tests are required by the state and given once or twice a year, such as End-of-Course and End-of-Grade tests. Some of the state test results are also used to calculate district progress on the federal standard of Adequate Yearly Progress for each student. This page provides brief explanations of some of the measures and tests used in CMS.

## ► Adequate Yearly Progress (AYP)

Our school **DID** make AYP  
(17 of 17 goals met)

The federal No Child Left Behind Act requires that every school make Adequate Yearly Progress (AYP). AYP is an all-or-nothing standard: Every target must be met.

State test results are used to set AYP targets. There are separate targets for the school as a whole and for nine subgroups of students: white, black, Hispanic, Native American, Asian, multiracial, economically disadvantaged students, students with limited English proficiency and students with disabilities. Subgroups of students are measured separately so that an overall score for a class or a school does not mask poor results within a subgroup.

Some schools are more diverse than others, so the number of subgroups varies by school. Therefore, the number of AYP targets varies by school, too. Some schools may have only a few targets to meet; others may have the maximum, which is 41. School attendance and graduation rates are also measured for AYP.

For a more complete overview of AYP, visit [www.dpi.state.nc.us/nclb/abcayp/overview/ayp](http://www.dpi.state.nc.us/nclb/abcayp/overview/ayp)

For details of AYP results for our school and its student groups, visit <http://ayp.ncpublicschools.org>

## ► ABC Designation

Our school's designation: **School of Progress**  
(DID meet high growth expectations)

**Proficiency: 78.1%**

The North Carolina ABCs program was introduced more than a decade ago to help schools improve. It uses two basic measures to assess a school's performance: the Average Growth of students (at right); and the Performance Composite, which measures how well students performed against a state-set standard of academic achievement.

Schools are given one of seven designations. In descending order, they are: Honor School of Excellence, School of Excellence, School of Distinction, School of Progress, No Recognition, Priority School, and Low Performing.

For more information about ABCs, visit <http://abcs.ncpublicschools.org/abcs>

## ► Average Growth

State Standard: 80%  
**Our School: 82.7%**

Did our students meet the state's expectation for academic growth? Each student is expected to perform as well (or better) on the End-of-Grade assessment as he or she did, on average, during the previous two years. Average Growth for a school is calculated by comparing actual performance to expected performance and then averaging the difference across all students and all subjects. The score above reflects the combined growth rate of all of our students. To make expected growth, a school must have a score of 80% or higher.

## ► Students Making or Exceeding a Year's Worth of Growth

State Standard: 60%  
**Our School: 63.7%**

Did our students learn as much as they were expected to learn this year? As described above, the state sets expectations for each student based on individual performance for the previous two years. Across the state, about half of students typically meet or exceed this growth expectation. To earn the high-growth designation, a school must meet the average-growth standard described above and also have more than 60% of its students make expected growth.

## ► Amount of Growth for Students in the Lowest Achieving Group

**Our School: 81.5%**

Are we helping our low achievers catch up? Historically, some poor and minority students have trailed their classmates in academic achievement. This is called the achievement gap, and closing it is one of the biggest challenges in public education. If the lower-achieving students at a school show academic growth at a faster rate than higher-achieving students, the achievement gap is narrowed. When the percentage for this measure is higher than the Average Growth for the school, the school is closing the achievement gap.

## ► Positive Responses to Multiple Student Survey Items

<b>Our School's Results:</b>	<b>Safety</b>	<b>91%</b>
	<b>Encouragement</b>	<b>97%</b>
	<b>Engagement</b>	<b>95%</b>

Do our students perceive this school as safe and welcoming? This measure is subjective—it is taken from a student survey.

# ► Croft Community School

*(Principal's message continued)*

While pleased with our success, we know there is much to do to ensure that every student achieves academic progress. So what are we doing to improve the quality of instruction? At Croft Community, we have adopted the Basic School philosophy. The overarching goal of this style of teaching and learning is to strengthen elementary education by bringing together key components of a quality education under four priorities: the school as a community, a curriculum with coherence, a climate for learning and a commitment to character.

We will keep the focus on integrated instruction, which means that students participate in lessons that connect content and skills in meaningful ways. We will actively involve parents and guardians to promote learning at home. Additionally, teachers will continue to explore new ways to improve literacy using a research-based curriculum called Words their Way.

Teachers regularly collaborate to assess data, which helps determine student progress and provide instruction at the appropriate levels. Each grade-level team serves as a think tank, designing best-practice teaching strategies to help struggling students. We also offer after-school tutoring for those third-through fifth-grade students who need an extra boost.

As we look ahead, I am confident that we will see continued student growth in academics, citizenship and self-reliance. Working together, we can ensure a learning environment focused on continuous improvement.

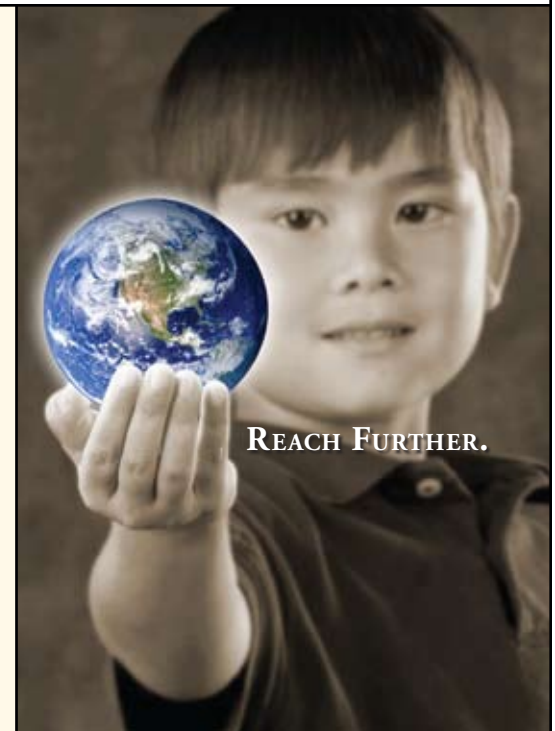

Sincerely,  
Kathleen S. Elling  
*Principal*

## What is the School Progress Report?

In 2006, we introduced the *Charlotte-Mecklenburg Schools Strategic Plan 2010* outlining our vision and strategy to educate our students to compete locally, nationally and internationally.

The plan outlines seven areas of concentration: high academic achievement; effective educators; adequate resources and facilities; safe and orderly schools; freedom and flexibility with accountability; world-class service, and strong parent and community connections. This report summarizes how our school performed in the 2008-09 school year in making progress on these seven goals. On page 3, you will also find an explanation of federal and state accountability measures.

Educators and parents have a common goal of preparing our children to compete in an ever-growing global community. Working together requires frequent dialogue between school and parents, so please feel free to contact the principal or any staff member at our school.

REACH FURTHER.

The logo for Charlotte-Mecklenburg Schools (CMS) features a stylized green leaf above the lowercase letters 'cms' in a bold, red, sans-serif font. Below the letters, the full name 'Charlotte-Mecklenburg Schools' is written in a smaller, black, sans-serif font.
