

# ▶ McAlpine Elementary School

## A Message from the Principal

Dear McAlpine Elementary School families:

The purpose of the School Progress Report for McAlpine Elementary is to fully inform you about our students' academic progress, our staff and our school environment. We also want you to be aware of our plans for the 2009–2010 school year.

End-of-Grade test results indicate that McAlpine is making gains in some areas, and we are dedicated to accomplishing even more. Last school year, 81.4 percent of students in grades three through five scored at or above grade level in reading. This was a 1.9 point increase (without retests) from the previous school year. In math, 87.5 percent of third- through fifth-grade students scored at or above grade level, an increase of 1.5 points (without retests). Overall, these results show that 80.9 percent of our students demonstrated proficiency last year.

I am pleased to report that McAlpine made Adequate Yearly Progress, the standard set for schools by the No Child Left Behind Act, by meeting all of our targets. Moreover, every subgroup but one achieved more than a year's worth of growth under the state's ABC standards. Well done to our students and staff.

So what are we doing to maintain this progress and improve student achievement? Our staff is working collaboratively, meeting twice weekly in teams, to plan meaningful and engaging lessons. We use all available data to make our instructional decisions. This helps us determine how students learn best so that we may develop instruction to meet the individual needs of each child. We are also providing research-based support for those students who require additional help in the classroom. Finally, our Talent Development

*(Principal's message continued on back)*

## KEY FACTS

*Data effective as of spring 2009*

### Principal

Ernest Saxton

email: [ernest.saxton@cms.k12.nc.us](mailto:ernest.saxton@cms.k12.nc.us)

### Grades

K - 5

### School Population

- 583 Students
- 38 Teachers
- 1 Assistant Principal
- 1 Student Services Specialist
- 31 Support Staff

### Student Demographics

- 15.4% African American
- 63.0% White
- 11.8% Hispanic
- 5.1% Asian
- 4.6% Other
- 24.2% of students qualify for free or reduced-price lunch

### Learning Community

South

Area Superintendent: Tyler Ream

<sup>2</sup>Based on responses to 2008-09 survey; multiple survey items may have been used to create a composite

<sup>3</sup>Incidents per 100 students

<sup>4</sup>Per 100 students

# CMS Accountability Measures

The learning of students in public education is measured in multiple ways. There are assessments given at regular intervals by CMS—tests that we use to measure how students are learning as the school year progresses. Other tests are required by the state and given once or twice a year, such as End-of-Course and End-of-Grade tests. Some of the state test results are also used to calculate district progress on the federal standard of Adequate Yearly Progress for each student. This page provides brief explanations of some of the measures and tests used in CMS.

## ► Adequate Yearly Progress (AYP)

Our school **DID** make AYP  
(19 of 19 goals met)

The federal No Child Left Behind Act requires that every school make Adequate Yearly Progress (AYP). AYP is an all-or-nothing standard: Every target must be met.

State test results are used to set AYP targets. There are separate targets for the school as a whole and for nine subgroups of students: white, black, Hispanic, Native American, Asian, multiracial, economically disadvantaged students, students with limited English proficiency and students with disabilities. Subgroups of students are measured separately so that an overall score for a class or a school does not mask poor results within a subgroup.

Some schools are more diverse than others, so the number of subgroups varies by school. Therefore, the number of AYP targets varies by school, too. Some schools may have only a few targets to meet; others may have the maximum, which is 41. School attendance and graduation rates are also measured for AYP.

For a more complete overview of AYP, visit [www.dpi.state.nc.us/nclb/abcayp/overview/ayp](http://www.dpi.state.nc.us/nclb/abcayp/overview/ayp)

For details of AYP results for our school and its student groups, visit <http://ayp.ncpublicschools.org>

## ► ABC Designation

Our school's designation: **School of Distinction**  
(DID meet high growth expectations)

**Proficiency: 81.0%**

The North Carolina ABCs program was introduced more than a decade ago to help schools improve. It uses two basic measures to assess a school's performance: the Average Growth of students (at right); and the Performance Composite, which measures how well students performed against a state-set standard of academic achievement.

Schools are given one of seven designations. In descending order, they are: Honor School of Excellence, School of Excellence, School of Distinction, School of Progress, No Recognition, Priority School, and Low Performing.

For more information about ABCs, visit <http://abcs.ncpublicschools.org/abcs>

## ► Average Growth

State Standard: 80%  
**Our School: 84.8%**

Did our students meet the state's expectation for academic growth? Each student is expected to perform as well (or better) on the End-of-Grade assessment as he or she did, on average, during the previous two years. Average Growth for a school is calculated by comparing actual performance to expected performance and then averaging the difference across all students and all subjects. The score above reflects the combined growth rate of all of our students. To make expected growth, a school must have a score of 80% or higher.

## ► Students Making or Exceeding a Year's Worth of Growth

State Standard: 60%  
**Our School: 68.8%**

Did our students learn as much as they were expected to learn this year? As described above, the state sets expectations for each student based on individual performance for the previous two years. Across the state, about half of students typically meet or exceed this growth expectation. To earn the high-growth designation, a school must meet the average-growth standard described above and also have more than 60% of its students make expected growth.

## ► Amount of Growth for Students in the Lowest Achieving Group

**Our School: 82.5%**

Are we helping our low achievers catch up? Historically, some poor and minority students have trailed their classmates in academic achievement. This is called the achievement gap, and closing it is one of the biggest challenges in public education. If the lower-achieving students at a school show academic growth at a faster rate than higher-achieving students, the achievement gap is narrowed. When the percentage for this measure is higher than the Average Growth for the school, the school is closing the achievement gap.

## ► Positive Responses to Multiple Student Survey Items

<b>Our School's Results:</b>	<b>Safety</b>	<b>97%</b>
	<b>Encouragement</b>	<b>97%</b>
	<b>Engagement</b>	<b>96%</b>

Do our students perceive this school as safe and welcoming? This measure is subjective—it is taken from a student survey.

# ► McAlpine Elementary School

*(Principal's message continued)*

program helps challenge high-performing students in grades two through five. We are working diligently to set high academic expectations and raise achievement for all students.

At McAlpine, we offer a variety of extracurricular clubs and activities to support our students' social and emotional growth. These include chess club, Odyssey of the Mind and Student Council.

Our students and teachers are contributing to society through their commitment to community-service projects. They collect thousands of books for schools in need. In addition, the students and teachers participate in Walk a Mile in Someone Else's Shoes to raise awareness for the homeless. Every year, students bring in Coats for Kids as well as collect food for the food bank.

McAlpine makes a difference by involving parents in their children's learning. Principal coffees provide

a comfortable forum where parents are invited to chat with the principal, ask questions, make suggestions and contribute ideas.

I am confident that we will see continued growth this year at McAlpine. Our staff is dedicated; our students are focused and hard working, and our parents and community are supportive. This combination will ensure that our students demonstrate continued academic improvement and success.

Sincerely,  
Ernest Saxton III  
*Principal*

## What is the School Progress Report?

In 2006, we introduced the *Charlotte-Mecklenburg Schools Strategic Plan 2010* outlining our vision and strategy to educate our students to compete locally, nationally and internationally.

The plan outlines seven areas of concentration: high academic achievement; effective educators; adequate resources and facilities; safe and orderly schools; freedom and flexibility with accountability; world-class service, and strong parent and community connections. This report summarizes how our school performed in the 2008-09 school year in making progress on these seven goals. On page 3, you will also find an explanation of federal and state accountability measures.

Educators and parents have a common goal of preparing our children to compete in an ever-growing global community. Working together requires frequent dialogue between school and parents, so please feel free to contact the principal or any staff member at our school.

REACH FURTHER.
