

# ► Oakhurst Elementary School

## A Message from the Principal

Dear Oakhurst Elementary School families:

This is the second School Progress report for Oakhurst Elementary. We are sending this to you so that you may be fully informed about our students' academic progress, our staff and our school environment.

Oakhurst Elementary uses the Paideia philosophy to provide hands-on learning opportunities that enhance teaching and learning in all subject areas.

On the state End-of-Grade tests, Oakhurst made gains in several areas. Our composite proficiency rate on the math test was 71.1 percent, an increase of three points (without retests) from the previous year. In reading, 64.1 percent of students showed proficiency, an increase of 1.7 points (without retests). Our science students scored at 46.3 percent proficiency, which represented an impressive 10 point increase from the previous year (without retests). Our school's overall composite proficiency rate was 64.4 percent. That means we achieved Expected Growth status.

We did not, however, make Adequate Yearly Progress (AYP) for the 2008-2009 school year. AYP is the standard set for schools by the No Child Left Behind Act. We did come very close, meeting 20 of our 21 targets (95.2 percent), which is an increase from the previous school year.

So what are we doing to continue our progress and improve the academic achievement of all students? Each grade level meets twice weekly to plan meaningful lessons in all subject areas. As mentioned earlier, we incorporate the Paideia philosophy into our teaching, and this promotes student engagement and critical thinking. We also analyze assessment data to ensure we meet the diverse needs of all students.

*(Principal's message continued on back)*

## KEY FACTS

*Data effective as of spring 2009*

### Principal

Susan Wilson

email: [susan.wilson@cms.k12.nc.us](mailto:susan.wilson@cms.k12.nc.us)

Oakhurst Elementary School is a partial Paideia magnet.

### Grades

K - 5

### School Population

- 578 Students
- 43 Teachers
- 1 Student Services Specialist
- 46 Support Staff

### Student Demographics

- 56.6% African American
- 20.8% White
- 9.2% Hispanic
- 5.2% Asian
- 8.3% Other
- 67.8% of students qualify for free or reduced-price lunch

### Learning Community

East

Area Superintendent: Nancy Bartles  
9601 E. Independence Boulevard  
Matthews, NC 28105

<sup>2</sup>Based on responses to 2008-09 survey; multiple survey items may have been used to create a composite

<sup>3</sup>Incidents per 100 students

<sup>4</sup>Per 100 students

# CMS Accountability Measures

The learning of students in public education is measured in multiple ways. There are assessments given at regular intervals by CMS—tests that we use to measure how students are learning as the school year progresses. Other tests are required by the state and given once or twice a year, such as End-of-Course and End-of-Grade tests. Some of the state test results are also used to calculate district progress on the federal standard of Adequate Yearly Progress for each student. This page provides brief explanations of some of the measures and tests used in CMS.

## ► Adequate Yearly Progress (AYP)

Our school **DID NOT** make AYP  
(20 of 21 goals met)

The federal No Child Left Behind Act requires that every school make Adequate Yearly Progress (AYP). AYP is an all-or-nothing standard: Every target must be met.

State test results are used to set AYP targets. There are separate targets for the school as a whole and for nine subgroups of students: white, black, Hispanic, Native American, Asian, multiracial, economically disadvantaged students, students with limited English proficiency and students with disabilities. Subgroups of students are measured separately so that an overall score for a class or a school does not mask poor results within a subgroup.

Some schools are more diverse than others, so the number of subgroups varies by school. Therefore, the number of AYP targets varies by school, too. Some schools may have only a few targets to meet; others may have the maximum, which is 41. School attendance and graduation rates are also measured for AYP.

For a more complete overview of AYP, visit [www.dpi.state.nc.us/nclb/abcayp/overview/ayp](http://www.dpi.state.nc.us/nclb/abcayp/overview/ayp)

For details of AYP results for our school and its student groups, visit <http://ayp.ncpublicschools.org>

## ► ABC Designation

Our school's designation: **School of Progress**  
(DID meet growth expectations)

**Proficiency: 64.4%**

The North Carolina ABCs program was introduced more than a decade ago to help schools improve. It uses two basic measures to assess a school's performance: the Average Growth of students (at right); and the Performance Composite, which measures how well students performed against a state-set standard of academic achievement.

Schools are given one of seven designations. In descending order, they are: Honor School of Excellence, School of Excellence, School of Distinction, School of Progress, No Recognition, Priority School, and Low Performing.

For more information about ABCs, visit <http://abcs.ncpublicschools.org/abcs>

## ► Average Growth

State Standard: 80%  
**Our School: 81.9%**

Did our students meet the state's expectation for academic growth? Each student is expected to perform as well (or better) on the End-of-Grade assessment as he or she did, on average, during the previous two years. Average Growth for a school is calculated by comparing actual performance to expected performance and then averaging the difference across all students and all subjects. The score above reflects the combined growth rate of all of our students. To make expected growth, a school must have a score of 80% or higher.

## ► Students Making or Exceeding a Year's Worth of Growth

State Standard: 60%  
**Our School: 57.4%**

Did our students learn as much as they were expected to learn this year? As described above, the state sets expectations for each student based on individual performance for the previous two years. Across the state, about half of students typically meet or exceed this growth expectation. To earn the high-growth designation, a school must meet the average-growth standard described above and also have more than 60% of its students make expected growth.

## ► Amount of Growth for Students in the Lowest Achieving Group

**Our School: 79.6%**

Are we helping our low achievers catch up? Historically, some poor and minority students have trailed their classmates in academic achievement. This is called the achievement gap, and closing it is one of the biggest challenges in public education. If the lower-achieving students at a school show academic growth at a faster rate than higher-achieving students, the achievement gap is narrowed. When the percentage for this measure is higher than the Average Growth for the school, the school is closing the achievement gap.

## ► Positive Responses to Multiple Student Survey Items

<b>Our School's Results:</b>	<b>Safety</b>	<b>88%</b>
	<b>Encouragement</b>	<b>98%</b>
	<b>Engagement</b>	<b>97%</b>

Do our students perceive this school as safe and welcoming? This measure is subjective—it is taken from a student survey.

# ► Oakhurst Elementary School

*(Principal's message continued)*

At the beginning of this year's second semester, tutoring will be offered during the school day for a select group of students in grades three through five. We will provide students needing additional support with targeted interventions and remediation throughout the school year. Meanwhile, higher-performing students will receive enrichment opportunities through the Talent Development program.

We have put in place a yearlong professional development plan to train our staff in research-based instructional strategies. These strategies include Sheltered Instruction Observation Protocols to give support to our English Language Learners; differentiated instruction, a flexible approach to teaching that adapts the curriculum to individual learning levels and the Paideia philosophy, and best practices in classroom instruction. Together, these will help us to work toward our goal of ensuring academic success for all students.

To support our students' social and emotional growth, we offer a number of extracurricular activities, such as Math Olympiad, student council, physical activity club, school chorus and art club. We will continue our Happy Feet walking club, which allows students to earn incentives based on the number of laps and/or miles they walk during the year.

I am confident that we will continue to see growth this year at Oakhurst Elementary. We have a dedicated staff, involved parents and community and students who are focused and eager to learn. With this combination, our students will continue to improve academically and achieve success. Thank you for your continued support.

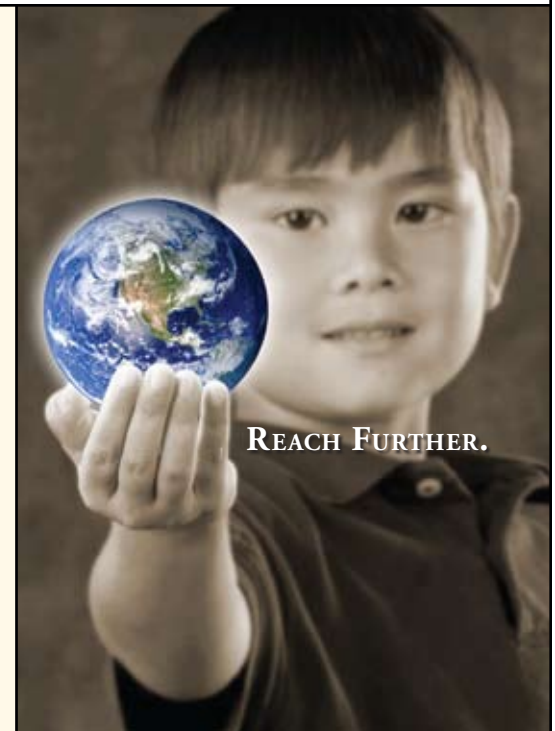

Sincerely,  
Susan D. Wilson  
*Principal*

## What is the School Progress Report?

In 2006, we introduced the *Charlotte-Mecklenburg Schools Strategic Plan 2010* outlining our vision and strategy to educate our students to compete locally, nationally and internationally.

The plan outlines seven areas of concentration: high academic achievement; effective educators; adequate resources and facilities; safe and orderly schools; freedom and flexibility with accountability; world-class service, and strong parent and community connections. This report summarizes how our school performed in the 2008-09 school year in making progress on these seven goals. On page 3, you will also find an explanation of federal and state accountability measures.

Educators and parents have a common goal of preparing our children to compete in an ever-growing global community. Working together requires frequent dialogue between school and parents, so please feel free to contact the principal or any staff member at our school.

REACH FURTHER.
