

# ▶ Park Road Montessori School

## A Message from the Principal

To our Park Road Montessori School community:

This second School Progress Report for Park Road Montessori is part of our effort to keep families fully informed about our students' academic progress, our staff and our school environment.

Park Road Montessori achieved excellent composite proficiency rates in the state End-of-Grade tests: 95.9 percent in math, 93.8 percent in reading and 84.2 percent in science. Our students have increased their achievement on the End-of-Grade tests for the past two years and we are extremely pleased with their progress.

We are also proud to report that, for the second consecutive year, Park Road Montessori made Adequate Yearly Progress, the standard set for schools by the No Child Left Behind Act.

Although we are pleased with the gains that our students have made in the past school year, we are focused on the current school year and the gains we want to make now.

So what are we doing to improve our students' academic progress? We follow the Montessori Method, a form of teaching that opposes rote memorization of information. The Montessori way does not require textbooks, but uses materials that are designed to intrigue and hold a child's attention. A teacher works with individual students or small groups, and students are free to return after the lesson to explore the materials further.

The core subjects of language, math, science, social studies and the arts are interwoven in a multidisciplinary frame of learning. All of this exists in a very structured classroom environment. Maria Montessori believed "we should follow the child," so our teachers allow the

## KEY FACTS

*Data effective as of spring 2009*

### Principal

Anna D. Moraglia

email: [anna.moraglia@cms.k12.nc.us](mailto:anna.moraglia@cms.k12.nc.us)

Park Road Montessori School is a full Montessori magnet.

### Grades

Pre-K - 5 (2008-2009)

Pre-K - 6 (2009-2010)

### School Population

- 461 Students
- 26 Teachers
- 1 Assistant Principal
- 1 Student Services Specialist
- 35 Support Staff

### Student Demographics

- 24.3% African American
- 61.4% White
- 4.8% Hispanic
- 5.0% Asian
- 4.6% Other
- 14.5% of students qualify for free or reduced-price lunch

<sup>3</sup>Incidents per 100 students

<sup>4</sup>Per 100 students

# CMS Accountability Measures

The learning of students in public education is measured in multiple ways. There are assessments given at regular intervals by CMS—tests that we use to measure how students are learning as the school year progresses. Other tests are required by the state and given once or twice a year, such as End-of-Course and End-of-Grade tests. Some of the state test results are also used to calculate district progress on the federal standard of Adequate Yearly Progress for each student. This page provides brief explanations of some of the measures and tests used in CMS.

## ► Adequate Yearly Progress (AYP)

Our school **DID** make AYP  
(9 of 9 goals met)

The federal No Child Left Behind Act requires that every school make Adequate Yearly Progress (AYP). AYP is an all-or-nothing standard: Every target must be met.

State test results are used to set AYP targets. There are separate targets for the school as a whole and for nine subgroups of students: white, black, Hispanic, Native American, Asian, multiracial, economically disadvantaged students, students with limited English proficiency and students with disabilities. Subgroups of students are measured separately so that an overall score for a class or a school does not mask poor results within a subgroup.

Some schools are more diverse than others, so the number of subgroups varies by school. Therefore, the number of AYP targets varies by school, too. Some schools may have only a few targets to meet; others may have the maximum, which is 41. School attendance and graduation rates are also measured for AYP.

For a more complete overview of AYP, visit [www.dpi.state.nc.us/nclb/abcayp/overview/ayp](http://www.dpi.state.nc.us/nclb/abcayp/overview/ayp)

For details of AYP results for our school and its student groups, visit <http://ayp.ncpublicschools.org>

## ► ABC Designation

Our school's designation: **Honor School of Excellence**  
(DID meet high growth expectations)

**Proficiency: 93.6%**

The North Carolina ABCs program was introduced more than a decade ago to help schools improve. It uses two basic measures to assess a school's performance: the Average Growth of students (at right); and the Performance Composite, which measures how well students performed against a state-set standard of academic achievement.

Schools are given one of seven designations. In descending order, they are: Honor School of Excellence, School of Excellence, School of Distinction, School of Progress, No Recognition, Priority School, and Low Performing.

For more information about ABCs, visit <http://abcs.ncpublicschools.org/abcs>

## ► Average Growth

State Standard: 80%  
**Our School: 84.2%**

Did our students meet the state's expectation for academic growth? Each student is expected to perform as well (or better) on the End-of-Grade assessment as he or she did, on average, during the previous two years. Average Growth for a school is calculated by comparing actual performance to expected performance and then averaging the difference across all students and all subjects. The score above reflects the combined growth rate of all of our students. To make expected growth, a school must have a score of 80% or higher.

## ► Students Making or Exceeding a Year's Worth of Growth

State Standard: 60%  
**Our School: 67.9%**

Did our students learn as much as they were expected to learn this year? As described above, the state sets expectations for each student based on individual performance for the previous two years. Across the state, about half of students typically meet or exceed this growth expectation. To earn the high-growth designation, a school must meet the average-growth standard described above and also have more than 60% of its students make expected growth.

## ► Amount of Growth for Students in the Lowest Achieving Group

**Our School: 83.8%**

Are we helping our low achievers catch up? Historically, some poor and minority students have trailed their classmates in academic achievement. This is called the achievement gap, and closing it is one of the biggest challenges in public education. If the lower-achieving students at a school show academic growth at a faster rate than higher-achieving students, the achievement gap is narrowed. When the percentage for this measure is higher than the Average Growth for the school, the school is closing the achievement gap.

## ► Positive Responses to Multiple Student Survey Items

<b>Our School's Results:</b>	<b>Safety</b>	<b>98%</b>
	<b>Encouragement</b>	<b>99%</b>
	<b>Engagement</b>	<b>100%</b>

Do our students perceive this school as safe and welcoming? This measure is subjective—it is taken from a student survey.

# ▶ Park Road Montessori School

*(Principal's message continued)*

children to take the lead in what they study, the time of day they complete their work and how a classroom should function. In this way, children learn at a young age how to make decisions and to follow through on these decisions. This teaching approach is both differentiated and flexible in that it adapts the curriculum to individual learning needs.

The Park Road Montessori staff works collaboratively, meeting weekly in teams to discuss instruction and using data to make appropriate instructional decisions for each child.

Our faculty is strong and experienced. Nineteen of our 20 teachers are Montessori-certified, and the remaining teacher will complete her training during the 2009-2010 school year. Nine of our teachers have also earned their National Board certification. We have very low staff turnover. Our teachers are dedicated Montessorians who wish to touch the lives of as many children as possible. Faculty and staff stay at Park Road

Montessori because this is an environment that values the needs of its staff and students.

I am confident we will continue to see improvement in student learning and achievement. Park Road Montessori has always been a supportive, safe environment in which students and teachers treat each other with respect. That tradition will continue.

We are very proud of the community that has been established at Park Road Montessori. It is a special place that provides an optimal learning environment based upon the Montessori method of guiding, developing and nurturing the individual child. Respect for the child is the foundation of our philosophy.

Sincerely,  
Anna D. Moraglia  
*Principal*

## What is the School Progress Report?

In 2006, we introduced the *Charlotte-Mecklenburg Schools Strategic Plan 2010* outlining our vision and strategy to educate our students to compete locally, nationally and internationally.

The plan outlines seven areas of concentration: high academic achievement; effective educators; adequate resources and facilities; safe and orderly schools; freedom and flexibility with accountability; world-class service, and strong parent and community connections. This report summarizes how our school performed in the 2008-09 school year in making progress on these seven goals. On page 3, you will also find an explanation of federal and state accountability measures.

Educators and parents have a common goal of preparing our children to compete in an ever-growing global community. Working together requires frequent dialogue between school and parents, so please feel free to contact the principal or any staff member at our school.

REACH FURTHER.
