

# ▶ Winterfield Elementary School

## A Message from the Principal

To our Winterfield Elementary School families:

This is the second School Progress Report for Winterfield Elementary. We are sending this to you so that you may be fully informed about our students' academic progress, our staff and our school environment.

Winterfield had a proficiency rate of 51 percent on the End-of-Grade math tests and a rate of 39.8 percent on the End-of-Grade reading tests. This means that half of our third- through fifth-grade students are on grade level in math and more than one-third in reading. These scores reflect the initial test results; last school year, students who scored below grade level were allowed to retake math and reading tests. Additionally, fifth-grade students took the End-of-Grade science test and 27 percent of them scored proficient before the retest.

After retesting, our scores in all three areas increased. Math proficiency increased to 66.3 percent, reading to 49.2 percent and science to 48.6 percent.

We are very happy to report that our school did make Adequate Yearly Progress, the standard set for schools by the No Child Left Behind Act. We met all 21 of our targets—a great accomplishment!

So what are we doing to improve our students' academic achievement? Our staff is working collaboratively, meeting in teams to analyze data, examine student work and plan meaningful and engaging lessons. We are using differentiated instruction, a flexible teaching approach that adapts the curriculum to individual learning needs. We also use classroom looping to keep students with the same teacher for two years to foster student/teacher relationships.

*(Principal's message continued on back)*

## KEY FACTS

*Data effective as of spring 2009*

### Principal

Jacqueline R. Blackwell  
email: [j.blackwell@cms.k12.nc.us](mailto:j.blackwell@cms.k12.nc.us)

### Grades

K - 5

### School Population

- 589 Students
- 53 Teachers
- 1 Assistant Principal
- 1 Student Services Specialist
- 34 Support Staff

### Student Demographics

- 44.1% African American
- 1.7% White
- 48.4% Hispanic
- 1.7% Asian
- 4.1% Other
- 91.5% of students qualify for free or reduced-price lunch

### Learning Community

Northeast

Area Superintendent: Scott Muri

<sup>3</sup>Incidents per 100 students

<sup>4</sup>Per 100 students

# CMS Accountability Measures

The learning of students in public education is measured in multiple ways. There are assessments given at regular intervals by CMS—tests that we use to measure how students are learning as the school year progresses. Other tests are required by the state and given once or twice a year, such as End-of-Course and End-of-Grade tests. Some of the state test results are also used to calculate district progress on the federal standard of Adequate Yearly Progress for each student. This page provides brief explanations of some of the measures and tests used in CMS.

## ► Adequate Yearly Progress (AYP)

Our school **DID** make AYP  
(21 of 21 goals met)

The federal No Child Left Behind Act requires that every school make Adequate Yearly Progress (AYP). AYP is an all-or-nothing standard: Every target must be met.

State test results are used to set AYP targets. There are separate targets for the school as a whole and for nine subgroups of students: white, black, Hispanic, Native American, Asian, multiracial, economically disadvantaged students, students with limited English proficiency and students with disabilities. Subgroups of students are measured separately so that an overall score for a class or a school does not mask poor results within a subgroup.

Some schools are more diverse than others, so the number of subgroups varies by school. Therefore, the number of AYP targets varies by school, too. Some schools may have only a few targets to meet; others may have the maximum, which is 41. School attendance and graduation rates are also measured for AYP.

For a more complete overview of AYP, visit [www.dpi.state.nc.us/nclb/abcayp/overview/ayp](http://www.dpi.state.nc.us/nclb/abcayp/overview/ayp)

For details of AYP results for our school and its student groups, visit <http://ayp.ncpublicschools.org>

## ► ABC Designation

Our school's designation: **Priority School**  
(DID meet growth expectations)

**Proficiency: 56.6%**

The North Carolina ABCs program was introduced more than a decade ago to help schools improve. It uses two basic measures to assess a school's performance: the Average Growth of students (at right); and the Performance Composite, which measures how well students performed against a state-set standard of academic achievement.

Schools are given one of seven designations. In descending order, they are: Honor School of Excellence, School of Excellence, School of Distinction, School of Progress, No Recognition, Priority School, and Low Performing.

For more information about ABCs, visit <http://abcs.ncpublicschools.org/abcs>

## ► Average Growth

State Standard: 80%  
**Our School: 82.4%**

Did our students meet the state's expectation for academic growth? Each student is expected to perform as well (or better) on the End-of-Grade assessment as he or she did, on average, during the previous two years. Average Growth for a school is calculated by comparing actual performance to expected performance and then averaging the difference across all students and all subjects. The score above reflects the combined growth rate of all of our students. To make expected growth, a school must have a score of 80% or higher.

## ► Students Making or Exceeding a Year's Worth of Growth

State Standard: 60%  
**Our School: 58.5%**

Did our students learn as much as they were expected to learn this year? As described above, the state sets expectations for each student based on individual performance for the previous two years. Across the state, about half of students typically meet or exceed this growth expectation. To earn the high-growth designation, a school must meet the average-growth standard described above and also have more than 60% of its students make expected growth.

## ► Amount of Growth for Students in the Lowest Achieving Group

**Our School: 81.1%**

Are we helping our low achievers catch up? Historically, some poor and minority students have trailed their classmates in academic achievement. This is called the achievement gap, and closing it is one of the biggest challenges in public education. If the lower-achieving students at a school show academic growth at a faster rate than higher-achieving students, the achievement gap is narrowed. When the percentage for this measure is higher than the Average Growth for the school, the school is closing the achievement gap.

## ► Positive Responses to Multiple Student Survey Items

<b>Our School's Results:</b>	<b>Safety</b>	<b>93%</b>
	<b>Encouragement</b>	<b>100%</b>
	<b>Engagement</b>	<b>99%</b>

Do our students perceive this school as safe and welcoming? This measure is subjective—it is taken from a student survey.

# ▶ Winterfield Elementary School

*(Principal's message continued)*

Last year, we offered a number of extended-learning services, including an after-school tutoring program, to help those students who need additional support in math and literacy.

Our faculty is strong and highly qualified. In school year 2008-2009, our staff comprised 53 certified teachers and 14 teacher assistants. Thirty-three percent of our teachers hold advanced degrees and nine are National Board-certified. We have very low staff turnover because of our supportive and caring school climate. We consider our school a family that cares deeply for its children. Staff teamwork yields positive results as we focus on student learning and high academic achievement.

We continue to provide enrichment activities for our students, including a Talent Development program for grades two through five. To help support students' social and emotional growth, we offer a variety of clubs and activities including a chess and Math and

Science Olympiad clubs. Additionally, students with some musical talent may take violin lessons.

Character development is a priority at Winterfield and we recognize our students who exhibit positive behavior, achieve academic excellence and have perfect attendance.

I am confident that we will see continued growth this year at Winterfield. Our staff is dedicated and committed to providing a quality education for our children; our students are focused and hard working, and our parents and community are supportive. This combination will ensure continued success and improvement for our students and the school.

Sincerely,  
Jacqueline Blackwell  
*Principal*

## What is the School Progress Report?

In 2006, we introduced the *Charlotte-Mecklenburg Schools Strategic Plan 2010* outlining our vision and strategy to educate our students to compete locally, nationally and internationally.

The plan outlines seven areas of concentration: high academic achievement; effective educators; adequate resources and facilities; safe and orderly schools; freedom and flexibility with accountability; world-class service, and strong parent and community connections. This report summarizes how our school performed in the 2008-09 school year in making progress on these seven goals. On page 3, you will also find an explanation of federal and state accountability measures.

Educators and parents have a common goal of preparing our children to compete in an ever-growing global community. Working together requires frequent dialogue between school and parents, so please feel free to contact the principal or any staff member at our school.

REACH FURTHER.
